

LET'S JET

Accessible and affordable private aviation.

MEMBERSHIP PROGRAM

www.airly.com

“An Airly membership
means everything to me.”

LEE T - SYDNEY
MEMBER SINCE 2017

A word from the founders — p7

A warm welcome letter from the founders of Airly; Alexander Robinson and Luke Hampshire.

Introducing semi-private flying — p9

What do you get when you merge the perks of private aviation with the accessibility and affordability of business class? The better way to travel.

The experience — p11

From reservation to touchdown, your entire experience has been curated to be luxurious and efficient.

Loyalty matters — p17

Our loyalty program provides real value to frequent jetsetters without the confusing status, limitations and taxes.

Your team — p19

Your Airly member team doesn't deliver critical news via SMS. We're personal, fast and passionate in making your travel experience better.

Membership pricing — p21

Our program allows you to fly private more often with like-minded jet setters along the east coast with no ongoing fees.

Fleet details — p23

Learn more about the jets you'll experience onboard our member-initiated flights.

A WORD FROM THE FOUNDERS

Welcome to Airly.
Air travel, better.

After years working within and outside aviation, we have watched air travel become less efficient, less enjoyable and more stressful. We've listened to travelers' complaints about losing precious work time whilst sitting in airports and asked 'What can we do to fix this?'

'Air travel, better' perfectly sums up our aim - to deliver a **more seamless and efficient travel experience** to you wrapped in a simple membership package.

Airly allows sophisticated travelers to initiate and opt into private jet flights between Sydney, Melbourne and the Gold Coast **from a low \$1,295 per person**.

— In June 2019, we launched
the innovative membership
program with no ongoing fees. —

This Australia-first feature perfectly complements our experiences and events, which are travel packages built around world-class sporting and cultural dates.

Ultimately, we want your journey to be as memorable and enjoyable as the destination, and show you that private aviation is as accessible and affordable as the airlines.

INTRODUCING SEMI-PRIVATE

Merging the simplicity
of commercial with the
perks of private.

For decades the world of private aviation has been a means of travel exclusive to a select few. At the same time the quality of business class has been declining; becoming a nicer seat and meal on the same metal tube as everyone else.

We'd hate to bring up reliability but in August 2019, you had a 56% chance of arriving at your destination on time along the Melbourne - Sydney route.

At Airly, we've worked hard to find a way that we can merge the **predictability, accessibility and affordability** of flying business with the perks of private aviation - a 'semi private' flight if you will.

Perks of the Airly semi private service include:

- Seamless reservation process
- Speedy A to B flights
- Fresh gourmet catering
- Luxurious jet cabins
- An attentive team committed to making your air travel better

The last perk is the **network effect**, unique to semi private. Private aviation allows you to discuss sensitive material with your colleagues, but also offers the opportunity to network with like-minded fellow flyers.

No need to charter outright, no need to fly commercial.

Enjoy the best of both worlds with Airly.

THE EXPERIENCE

| It all begins with the Airly app.

- Simply download the Airly app, fill in your details and verify your phone number.
- You will automatically join as a free user and can now view already initiated flights and empty legs.
- If you wish to initiate your own flights and enjoy luxury event packages simply apply for a membership with no ongoing fees to pay.

| Skip the cramped airport lounges.

Your flight experience starts at the lounge, better known as the FBO.

Private jet lounges are separate from the main airport terminals, with all the facilities to make your time before boarding as relaxing as possible.

Simply arrive 20 minutes before you're due to depart and enjoy the often complimentary parking.

THE EXPERIENCE

Board in minutes, wheels up shortly thereafter.

The jets are handled by the highly capable operators Airly has carefully selected. **Enjoy the luxurious leather seats, quiet cabin and warm hospitality** from your crew.

You've saved 60 minutes already. Whilst the flight time isn't significantly faster, it is considerably more comfortable compared to commercial airlines.

Enjoy fresh, healthy in-flight meals.

Say goodbye to the soggy omelette or 'gourmet cookie.'

Airly's inflight meals are **delivered fresh from the kitchen** and cater to all dietary requirements.

Our fresh gourmet offering also comes in packaging that is completely environmentally friendly.

THE EXPERIENCE

Efficient landing.

Upon touchdown, it's a short taxi to the lounge. Once the engines stop, your bags will already be at the bottom of the stairs upon disembarking.

Airly offers a transfer service to make your journey even more seamless. If you've opted for a transfer, your driver will be ready and waiting.

“Love the fact you miss the entire check in and check out process! Just drop your bags, jump onto the flight and off you go!”

SAM K - SYDNEY
MEMBER SINCE AUG 2019

YOUR LOYALTY MEANS THE WORLD

We've eliminated the need to
count points, chase status,
and pay extra fees.

To us, your loyalty means everything. For Bronze, Silver, or Gold frequent flyers, hacking their way to business class makes sense.

However for those flying regularly, or looking for real recognition, we feel the loyalty offering can be confusing, restrictive and offer low value. This led us to research how we can best reward loyal members.

No fees, taxes or extra charges. You don't have to redeem either - you simply receive an account credit (average of your last 10 seats) to use on any: free seat, empty leg, charter, or experience.

When you book 10 seats, the
11th is completely free.

Soon to come: **our unique and discreet referral program.** If you love what we do and you want to share the Airly experience with others, invite other like-minded folk within your networks.

You will be generously rewarded with experiences, products, or flight-related rewards.

YOUR TEAM

As a flying community we've all experienced the **decline in service and communication from airlines** to their loyal customers.

Constant stories of Platinum One flyers receiving SMS notification that 'We cannot accommodate you today' due to congestion delays in Sydney. This is frankly unacceptable.

— At Airly, we are available for
our members 7 days a week. —

By text, phone, email or WhatsApp.

Should you require any information or assistance, there will always be a trusted Airly team member on the other end of the line available.

Never be left
in the dark.

MEMBERSHIP PRICING

Unlimited access with no ongoing fees.

With no upfront cost, experience seamless and speedy private air travel.

Reserve your flight is risk-free, travel with like minded individuals and enjoy a better way to travel.

| Safe. Reliable. Experienced.

These are our primary considerations when selecting which operators and aircraft we partner with.

Airly only work with operators who hold an immaculate safety record, reliable fleet and consistent service.

Here are the most common aircraft you'll fly on our member initiated flights:

Embraer Phenom 100

● Number of seats	5
● Fleet age	2010
● Number of pilots	1
● Lavetory	Yes
● Cabin height	150 cm
● Top speed	864 km/h
● Flight attendant	No

Embraer Phenom 300

● Number of seats	8
● Fleet age	2010-2019
● Number of pilots	1
● Lavetory	Yes
● Cabin height	150cm
● Top speed	963 km/h
● Flight attendant	No

| Anything larger?

These jets are the most commonly used, but you may travel on other crafts.

Rest assured all our fleet are selected from trusted operators that are best positioned and priced to accommodate your schedule.
